#### Love – The Real Thing; The Only Thing

Waking from the dream, from the illusions of duality and Separation Consciousness, includes rising into our spiritual maturity and its broader comprehension of Love.

Throughout our sojourn in Separation Consciousness, (the belief we could be separate from God, our Twin Flame and each other), our little minds have provided many definitions of “love”, such as:

- Agreeable, affectionate, pleasing, satisfying, supportive attachments
- A deep, tender feeling of ineffable affection or solicitude toward a person, such as that arising from kinship
- Recognition of attractive qualities
- Attraction based on sexual passion and desire
- An intense neurological bath of pleasure chemicals
- Having someone you care more for than you do yourself
- Co-dependent emotional stability
- Unconditional mutual acceptance
- Sincere loyalty, affection and care bestowed without obligation
- A mutually beneficial symbiotic relationship
- Temporary or permanent Insanity
- Patience and understanding
- Devotion and adoration
- An unexplainable attractive force
- Agreement between mind, body and heart
- A virtue representing all human kindness, compassion and affection, etc.

In 1 Corinthians 13, the Apostle said: “ When I was a child, I used to speak like a child, think like a child, reason like a child; when I became a man, I did away with childish things. For now we see in a mirror dimly, but then face to face; now I know in part, but then I will

know fully just as I also have been fully known. But now faith, hope, love, abide these three; but the greatest of these is love.”

He spoke of our imperfect knowledge and attainments in this life as well as that which we will come to know.

It has been a natural jump for the human psyche to project the child's (ego's) version of love upon its Twin Flame. It is through that lens that the majority still wish to define what the relationship is about, as well as what one should feel within it and how it should play out in this dimension.

However, as you have been awakening to the Twin Flame relationship and the Twin Flame Heart Womb, you have been taking a quantum leap which is redefining love in new terms – terms that look more like the spiritual declaration that “God is Love” and “Only Love is Real.”

Whether you are new to this information or have been researching it for years, you have been discovering that Love is the Only Begotten of the Mother / Father God and that we, as issue of that Love, are holograms of our Divine Parentage. It is the stuff from which everything is created, as well as the space between that holds all things together. It is the Only Thing That Is Real and has little to do with the emotional pleasantries described above.

As the Twin Flame Heart Womb is the eternally victorious atomic generator of Divine Love in its highest frequency, it is the ultimate creator of all substance, and the Source of all Freedom.

It is the vehicle through which all discordant vibrational creation can be recalibrated to its truth. Because the core of every electron holds the immaculate concept (Divine Blueprint) of love in its unadulterated form, it recognizes itself whenever it is exposed to such. This recognition of its true identity allows it to be easily re-attuned to its perfection, as a lower field will always realign with a higher field of vibration.

To give true love means to see and know only the truth behind every illusion, and by that vision and vibration, to literally restore everything to its Divine Blueprint.

There have been teachers (gurus) both past and present who have tapped into the ocean of Divine Love and used their own heart fields to emanate it to serve humanity. These teachers called it by many names, including “The great good thing,” or “Divine Energy”, but they were tapping the same field you are now learning to tap and utilize. One such guru, Kumar Trivedi, has participated with the scientific community to provide massive documented proof of its ability to shift things at a molecular level. He simply acts as a conduit to give “blessing” to whatever he wishes to affect, be it a human, the land, seeds, water, or an animal, and the electrons respond by resonantly returning to their Divine Blueprint.

Such is your opportunity now, dear ones. Such is the quantum leap from the child’s little mind to the mind of the masters you are all becoming.

The Twin Flame is but one being with two streams of consciousness; one the Divine Feminine and the other the Divine Masculine energy. As these two primal forces of creation unite, they create a heart womb which becomes the Ultimate Creational Matrix. In your conscious return to your true identity as a Twin Flame being, you stand on the threshold of absolute freedom and through your freedom, you shall free the world.
